In order to accept contributions to fund our life-saving work, Students for Life of America (SFLA) was incorporated as a non-profit organization in 1987. SFLA is the only national pro-life organization dedicated to equipping pro-life youth. We operate entirely on donations. 100% of your investment into Students for Life will go to fund our work starting and training student pro-life groups.

Thank you for your support of the youth pro-life movement!
